RICHMOND

Saint Cloud Florida.

FEBRUARY 13 1911.

Editor of the Climax:

From the above heading of this letter you can see I am in the Sunny South in the "Old Soldiers Magic City" or at least I was. On July 1st, 1909, there was one small house occupied by a surveying crew to lay off the town. Well they did their work well. To-day there is about one thousand houses as near as one could guess. A brief history of Saint Cloud and its surroundings will be of interest to my old comrades. The town is situated on a boundary of land once owned by the Diston people of Philadelphia, containing thirty-seven thousand acres of land in the center of this tract of land is the city of Saint Cloud, the town is two miles wide and three miles long, carefully and beautifully laid off. This boundary of land has a beautiful lake of water on each corner or near each corner of the land. The Diston people when they owned the land cannelled these lakes all together and cannelled the last lake into the St. John's river thus lowering the lakes about six feet, it will be seen that this puts Saint Cloud on the best drained land in Florida. But the work of drainage did not stop here. After the Seminole Land and Investment Co. bought this land there was one strip of low land in the center of town, they sunk a ditch about 34 feet the entire length of over three miles, this with a few shorter ditches, made the town nice and dry. The town is entirely on new land, much of the original forest, the town is a wonder to behold. Let us take a glance at the town only eighteen months old and see its growth. There is an artesian well 912 feet furnishing an abundance of pure water, has a National Bank in a dandy brick building, it has a brick post office building and a forty thousand dollar brick hotel modern up-to-date in every respect, has three or four small hotels, has an ice plant making and delivering ice at your door every morning, has electric light plant for the town and telephones, it has nearly every convenience that other towns 40 and 50 years old have, except paved streets of these have none. Many of the business houses have pavement otherwise the streets are all the original sandy bed. The Lord allotted to Florida in her creation. But all parts of the Lord's creation has some beauty and I look at the orange trees full of their precious fruit, the banana trees, the grape fruit, tangerine trees and the pine apple and all kinds of vegetables and flowers growing in abundance. It makes me think how good and

the town is going to the front. All this grand improvements have been made without an officer, the town has no officers in it and has never been incorporated yet but will be on the 16th, then there be street cleaning and many other improvements. Officers elected then see St. Cloud march on to further greatness. The matter of lots is the question many of my comrades will ask about, in reply I say there is a number of lots yet on sale by the Seminole Land and Investment Co. in the town line after you get away from the principal business squares at a reasonable price corner lots are worth \$125, lots adjoining the corner are sold at \$100, each they are all 25 by 150 feet and are in the desirable part of the city yet to be had there are three hundred lots sold the comrades own that are not improved, as the comrades have not yet come to take them. I should like to see a lot of old Ky. women in the chicken business I am sure—the ordinary chickens here sell for \$1.00, eggs marked cheap at 40 cents a dozen chickens grow up well here strange indeed to me why the people don't raise them. I see very few hogs. They still have the Fla. "Razor Backs" that could drink slop from a bottle. I see some better ones that would have to be slopped from a pan they all could be improved with the old Ky. hog raiser at the pen. I would be glad to write more on the Sunny land but for the present I must stop and give my friends a chance to think.

Very Truly,  
A. J. Tharp.

Warning to Railroad Men.

Look out for severe and even dangerous kidney and bladder trouble resulting from years of railroad. Geo. E. Bell, 330 Third St., Fort Wayne, Ind., was many years a conductor on the Nickel Plate. He says: "Twenty years of railroad work left my kidneys in terrible condition. There was a continual pain across my back and hips and my kidneys gave me much distress, and the action of my bladder was frequent and most painful. I got a supply of Foley's Kidney Pills and the first bottle made a wonderful improvement and four bottles cured me completely. Since being cured I have recommended Foley's Kidney Pills to many my railroad friends." Sold by Stockton & Son.

FOOD FOR A GENIUS.

Diet That Enabled Mrs. Siddons to Rise to Lady Macbeth.

It is not altogether easy to imagine a Lady Macbeth eating chops. Yet her greatest impersonator got her inspiration from them. If one may rely on an altogether delightful authority. On a certain occasion, writes E. V. Lupton in his book “The Second Post,” the painter Hayden paid his butcher, who reproached by expressing great admiration for the artist’s portrayal of “Alexander.”

“Quite alive, sir,” said the butcher.

“I am glad you think so,” said the artist.

“Yes, sir, but as I have often said to my sister, you could not have painted that picture, sir, if you had not eaten my meat, sir.”

“Very true, Mr. Sowerby.”

“Ah, sir, I have a fancy for genius, sir.”

“Have you, Mr. Sowerby?”

“Yes, sir. Mrs. Siddons, sir, has not my meat, sir. Never was such a woman for chops, sir. Ah, sir, she was a wonderful creature!”

“She was, Mr. Sowerby.”

“Ah, sir, when she used to eat that character—but, Lord, such a head, as I say to my sister—that there woman, sir, that murders a king between ‘em.”

“Oh, Lady Macbeth.”

“Ah, sir, that’s it—Lady Macbeth. I used to get up with the butter behind her ear when she acted, and I used to see her looking quite wild and all the people quite frightened. ‘Ah, my lady,’ says I, ‘if it wasn’t for my meat, though, you wouldn’t be able to do that!’”

THE COTTON INDUSTRY.

Alexander Hamilton Foresaw Its Importance in This Country.

There exists in the archives of one of the oldest among the cotton spinning families in northern New Jersey a long letter from a banker of New York addressed to Alexander Hamilton when he was secretary of the treasury.

The banker had heard that Hamilton intended to build a canal at Fort Mifflin, N. J. This project the banker understood and stated that it was the opinion of all the merchants in New York whom he knew that not a hundred years hence the cotton manufacturing in the United States employ 300,000.

Hamilton went ahead and planned the industrial town he named Paterson and also planned and financed a company for developing a water power and for financing corporations thereat.

Hamilton’s original company, known as the Society For Useful Manufactures, exists to this day at Paterson.

The agent whom Hamilton sent to England to buy cotton mill machinery was instructed to have it “knocked down” and placed in small boxes that were to be marked “Bibles For the Moravians of Pennsylvania.” It was at that time against the laws of England to ship any kind of industrial machinery out of the kingdom.

Hamilton’s brother and two of his agents were caught trying to ship the cotton mill machinery to Paterson, and they were imprisoned for ten months.—Cotton.

Waldo and the Picked Peppers.

“Now, dearie,” said the nurse, “I want you to learn this nice little poem about ‘Peter Piper picked a peck of picked peppers.’”

“Shan’t,” answered the Boston child, much in the manner of other children.

“Oh, naughty, naughty! Why, Waldo, why won’t you learn this pretty poem?”

“For two reasons,” answered Waldo. “In the first place, the alliteration of the line you quote is so excessive as to destroy any literary finish that such a poem could have. In the second place, the poem might lead it used more sparingly. And, in the second place, consider the impossibility of picking peppers which have already been picked. The whole thing is beneath the attention of any intelligent person.”—Boston Traveler.

Hunting on Treacherous Soil.

Salpe shooting on an Irish bog is an excellent test of a gamester’s skill and enthusiasm. An experienced bog hunter if he finds himself going down throws himself flat on his side or back and at the same time throws his gun to his attendant, generally an unshod “kossun,” who rarely fails to catch it. The separation of being bogged is very unpleasant, but if a man throws himself on his side or back there is strength enough in the peat to support his body.—Forty-Five Years of Sport.

A Great Wheel.

Lazey, the Isle of Man, is the headquarters of the lead mines of the island. It is celebrated also for its great wheel, which was erected in 1834. Its diameter is seventy-two feet, and so splendidly is it set that there is no oscillation, and it has been going steadily ever since its erection.

Twice Too Much.

“Two heads are better than one,” quoted the wise guy.

“I find one quite enough the morning after,” replied the simple mugg.—Philadelphia Record.

The innocent seldom find an uneasy pillow.—Compter.

which you hear and read so much about, we offer a machine that is perfect, absolutely perfect, a machine in which not the smallest detail can be improved.

And in order to get you to realize this superiority as we do, we have decided three things.

First, that we cannot afford to advertise its low price—you would never imagine that you could get so perfect a machine for so little money. To appreciate its price, you must come to the store and see the machine first.

Second, we will offer you the chance to test The FREE, from treadle to spool pin, in your own home. The best way for you to become enthusiastic over its one point of superiority after another is to actually see and use it for 30 days.

We want you to keep it in your home—to see as it is itself, your own—to test it in any way you choose—to compare it with any other sewing machine you know of and then make your decision. Unless you are fully satisfied—more than satisfied—send it back to us—it will not cost you a cent, we will refund all we have paid on it.

But now will be at least 32 reasons why you will want to keep The FREE when the 30 days are over.

Base Ball Season for 1911 Looms Up In the Distance Most Promising.

Murrah for the season 1911, for the Richmond Base ball club. Just a little more money from a few who have not as yet contributed and the season will be a success beyond a doubt. President Herrington is anxious to get as good financial start as so far he has succeeded well. But there are many people in town and county, who can afford to give from five to twenty-five dollars in order to have the popular game here this year and with every assurance of a pennant winner, they should contribute liberally.

The people of Richmond have shown their public spirit by good contributions and if this season is anything like 1910 in attendance and weather, there will be enough left over at the end to start in 1912 with a very good surplus.

Richmond is the smallest town in the league, but there are more real fans here than in any other town.
